Visit [www.NINcropolis.com](http://www.NINcropolis.com)! This site is a great example of interactive community building between Second Life and the Real World.

Started as a gathering place for Nine Inch Fans who also belonged to the fanclub, The Spiral, NINcropolis has become home to NIN fans and non fans alike. It is now home to Anarchy Castle, music club The Bomb Factory, goth burlesque club DeadDolls, Gothika Market, a Village and seedy Docks.
